

## Not long ago. Not far away.

Object Exploration Lab: Jewish Communities in Canada

## Part 1

Examine each object with the magnifying glass icons. Fill in the chart with what you **observe** and make **inferences** (educated guesses based on what you see) about what it tells you about life for Jewish Communities in Canada before or around the time of World War II?

| Object   | What do you observe? | What do you think this object tells you about life for Jewish communities in Canada? |
|----------|----------------------|--|
| Object 1 |                      |  |
|          |                      |  |
|          |                      |  |
|          |                      |  |
| Object 2 |                      |  |
|          |                      |  |
|          |                      |  |
|          |                      |  |

| Object   | What do you observe? | What do you think this object tells you about life for Jewish communities in Canada? |
|----------|----------------------|--|
| Object 3 |                      |  |
|          |                      |  |
|          |                      |  |
|          |                      |  |
| Object 4 |                      |  |
|          |                      |  |
|          |                      |  |
|          |                      |  |
| Object 5 |                      |  |
|          |                      |  |
|          |                      |  |
|          |                      |  |

## Part 2

Click through to the second version of the classroom with information for each object. Fill in what each object actually is. Record any new information you learned, and compare it to the educated guesses (**inferences**) you made in Part 1.

| Object        | What new information did you learn? | Did it match what you inferred about the object? Was it very different? Did anything surprise you? |
|---------------|-------------------------------------|--|
| Object 1 is a |                                     |  |
|               |                                     |  |
|               |                                     |  |
|               |                                     |  |
|               |                                     |  |
| Object 2 is a |                                     |  |
|               |                                     |  |
|               |                                     |  |
|               |                                     |  |
|               |                                     |  |
|               |                                     |  |

| Object        | What do you observe? | What do you think this object tells you about life for Jewish communities in Canada? |
|---------------|----------------------|--|
| Object 3 is a |                      |  |
|               |                      |  |
|               |                      |  |
|               |                      |  |
| Object 4 is a |                      |  |
|               |                      |  |
|               |                      |  |
|               |                      |  |
| Object 5 is a |                      |  |
|               |                      |  |
|               |                      |  |
|               |                      |  |
